FOR IMMEDIATE RELEASE:

NEBRASKA CANCER SPECIALISTS OPENS NEW CLINIC
AT THINK WHOLE PERSON HEALTHCARE

June 1, 2020 >> Omaha, NE  Think Whole Person Healthcare announced today that Nebraska Cancer Specialists will open a clinic on Level 3 of the Think building at 7100 W. Center Road. “Nebraska Cancer Specialists’ mission and vision are aligned with Think and we look forward to offering convenient access to their service for our current and future patients,” said Think CEO James Canedy, M.D.

“Our focus is, and has always been, providing the highest level of patient care and the best experience aligned with a Value Based Care model. Easy access is key to the way healthcare will be done in the future, and we look forward to offering our patients this opportunity to receive services from NCS and Think in the same building,” said Danielle Geiger, MSN, APRN-NP, AOCNP Nebraska Cancer Specialists Practice Administrator.

On June 2nd, Joel Michalski MD, PHD and Nagendra Natarajan MD, MPH will begin seeing patients on the 3rd floor in the Think Whole Person Healthcare building. The new clinic will feature:

- Consultation Appointments
- Genetic Counseling
- Follow-Up Visits
- Nutrition Services
- Side-Effect Management

“We are looking forward to expanding our NCS footprint and to deliver the same level of advanced hematology and oncology care patients have come to know and trust. NCS provides extensive access to clinical trials, cutting edge therapies and integrative health care services, which are essential components to treatment and recovery. With this expansion, we are able to provide care in a location that is familiar and convenient for our patients and their families,” said Joel Michalski, MD, PHD.

About Nebraska Cancer Specialists
Nebraska Cancer Specialists is a regional leader in Community Oncology, which refers to the practice of treating patients in an outpatient, private setting. The practice consists of 14 medical oncology and hematology, nuclear medicine and radiation oncology physicians, the most robust Clinical Trial Research department, and the first dedicated Theranostics center in the region, thus giving our patients access to newer, cutting edge options. NCS has been recognized with the Quality Oncology Practice Initiative QOPI certification that recognizes outpatient hematology-oncology practices in the United States for high-quality care. About Think Whole Person Health Care

Think Whole Person Healthcare is one of the largest independent primary care centers in the United States. The clinic employs over 300 people across a wide range of primary care disciplines serving more than 45,000 patients.

Think is an Accountable Care Organization specifically geared towards serving the needs of patients with chronic conditions who need ongoing care coordination to keep them on goal and out of hospital.

Opened on July 6, 2015, Think takes a team approach to managing its patients with Physicians, Care Coordinators, Clinical Pharmacists and RNs all working at the center of the team in a unique, integrated approach to managing older, sicker patients with multiple chronic conditions.

The clinic also has a dispensing pharmacy and key primary care functions such as Podiatry, Physical Therapy, Psychiatry and Optometry. Labs, X-Ray, CT, Mammograms, Ultrasound and Dena are also all done in-house in the custom-built center. A convenience care center is also available for walk-in patients.

Think physicians and clinicians see over 2,500 patients on a daily basis. Think is totally focused on customer service and committed to its mission of providing better outcomes for patients, giving them an enhanced health experience and lowering the cost of their care through looking at the whole person.
